

The UK Archival Thesaurus Project

Phil Carlisle

Editor

Supported by the
Heritage Lottery Fund

Project Overview

The project has been initiated to develop a thesaurus that will:

- provide a standardized, controlled vocabulary for subject indexing in the UK archive sector.
- ensure that subject terms incorporated into the National Archives Network are consistent and meet the needs of archive users

Project Overview (2)

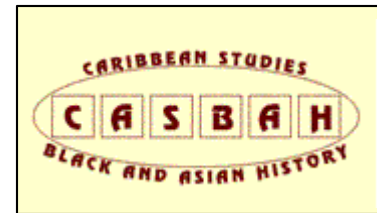

The thesaurus will provide archives and users with:

- terminology relevant to the archival sector
- access to archives by subject
- a subject indexing standard, to facilitate effective subject searches across the whole network
- a standard which actively promotes social inclusion

Project Partners

Project Contributors

Who is UKAT aimed at?

- Archive professionals
- Archive users
- The public

or.....

to put it in simple terms.....

Anybody with an interest in archives!

How can you help?

To make the thesaurus relevant to archives we need you to send us your non-UNESCO terms

These could be from:

- LCSH
- In-house subject indexes
- Other thesauri

Getting involved

UKAT currently has:

- a discussion forum
- an advisory panel
- a user group

If your interested in joining any of the above, or just want to know more about the project you can email us on.....
